

ATIQ ASSOCIATES  
Consulting Engineers

## OUR COMPANY

Since 2004, ATIQ ASSOCIATES is a prominent entity and the environs of structural engineering design consultancy firms. For the past 20 years (After Registration as Consulting Firm), our engineers and specialists have been providing services in structural design of high-rise Commercial, Industrial buildings, Educational, Hospitals, structural evaluation of old /existing building structures, cost estimation, structural renovations, project management, and detailed supervision of numerous structures all over the Pakistan.

These services have been repeatedly extended by us to several grand firms and corporations including various architectural firms, land development groups, industrial organizations, health and educational institutes, recreational facilities, business, finance companies, and welfare trusts.

By adhering to the four basic principles of engineering, safety, economy, innovation and aesthetics, we have been able to reserve a spot for ourselves in the good books of all our clients.

# PROFESSIONAL SERVICES

With the help of our engineers, associates, and other team members, we are providing consultancy services in the following fields of design and supervision.

- Structural Analysis and Design of high-rise commercial buildings, industrial, educational and residential building structures as well as hotels & motels, hospitals, medical facilities, laboratories, recreation, and sports facilities, stadiums, libraries, museums and galleries for both static and dynamic loading conditions including wind and seismic loads.
- R.C.C. frame structures, shells, and steel structures analysis both in two- and three-dimensional conditions with the help of computer software such as ETABS, SAP-2000, STAAD Pro, ADOSS, PCA and SAFE.
- Industrial economics, policy, and planning as well as industrial projects development and appraisal.
- Structural evaluation of old buildings and their strengthening & retrofitting procedures.
- Top and detailed supervision & construction management of designed projects.
